

About RPX

The services that customers ask of a logistics company are becoming more and more varied and customized. When you are sending goods or documents, you need the assurance that these will be sent quickly, safely and efficiently. If your business involves delivery of goods, you will need to contact various service providers for packaging, licensing, documentation services, and a courier or freight forwarder. Each time you send a package, you will need to contact at least three different service providers. RPX is here to facilitate and shorten this process. Whatever type of goods or documents you need to send, wherever you wish to send them, whether by air, land or sea, we have the infrastructure and network at your disposal. Even customs clearance and storage while your goods are in transit can be managed by RPX. RPX is supported by the latest state-of-the-art technology to answer your every needs. The comprehensive services offered by RPX along with our local and international network throughout the major cities in Indonesia and the world, will make everything easy for you. Contact RPX for all your logistics needs.

RPX Vision RPX and its subsidiaries are committed to provide superior one-stop logistics services through our employees, alignment with our principals, alliance partners and suppliers using world-class technology and business practices. Our people and service oriented team will forge mutually profitable partnership with our customers and suppliers.

RPX Mission RPX group of companies is dedicated to be a world class logistics provider, with the ability to compete in the global economy.
